Learn French, the French way

What's your level?

A1 - Basic users - Breakthrough

This level acknowledges basic competencies. At this discovery stage, the learners can interact in a simple way: they can speak about themselves and their immediate environment.

A2 - Basic users - Waystage

This level is based on the same principle: it acknowledges the linguistic competency of basic users, considered as social actors. The candidates can communicate in simple and routine tasks requiring the most common polite phrases and exchanges of information.

B1 - Independent users - Threshold

At this level, the users become independent. They can interact, understand and maintain a discussion, give their opinion. They are capable of dealing with situations likely to arise in daily life.

B2 - Independent users - Vantage

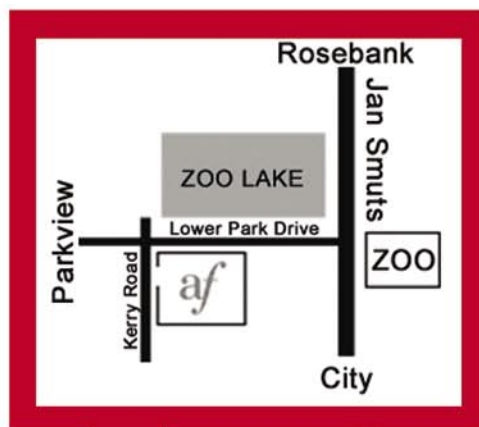

B2 users have a degree of independence that allows them to construct arguments to defend their opinion, explain their viewpoint and negotiate. At this level, the candidates show a certain fluency and spontaneity in regular interactions and are capable of correcting their own mistakes.
